| Domain(s):        | <a href="https://apnic.asia">apnic.asia</a>   |
| Executive Summary | <p>APNIC, established in 1993, is one of five Regional Internet Registries (RIRs) currently operating in the world. It is responsible for the allocation and registration of IP addresses within the Asia Pacific region, including IPv4 and IPv6 addresses, and associated numerical Internet resources. APNIC provides services which are critical to the operation of the Internet globally, as well as supporting the development of the Internet in the Asia Pacific region. APNIC is a not-for-profit, membership-based organization whose members include Internet Service Providers, National Internet Registries, and similar organizations. APNIC represents the Asia Pacific region (as defined by a consensus of the global RIR community), comprising 62 economies; and has a total of over 1500 members in 50 of those economies.</p> <p>The APNIC mission statement is “Addressing the challenge of responsible Internet resource distribution in the Asia Pacific region” . In addition to address allocation and registration services, APNIC offers training to technical personnel in the Asia and Pacific region who manage Internet infrastructures and associated IP address and domain name resources.</p> <p>As a regional industry self-regulatory body, APNIC coordinates the development of policies relating to the management of Internet address resources within the region. Using defined open policy processes, members and the Internet community discuss policy matters during APNIC’ s regular Open Policy meetings, as well as using online discussion media.</p> <p>Policies approved by consensus at the Open Policy meetings are then implemented by the APNIC secretariat and form the basis of APNIC’ s operations.</p> |

| Executive Summary | <p>Create.Asia is a not-for-profit youth organisation that builds youths around the world into main contributors to local and global society.</p> <p>Our mission: "To inspire youths to make a positive difference in our world." We seek to inculcate awareness of societal issues in today's youths, and encourage their involvement in the political, cultural and environmental issues in their home countries and around the world. We are dedicated to imbuing leadership qualities in youths and make them leaders in their own right. In this way, we equip the youths of the world to take action against specific issues affecting society on a local and global level. Our strong connections with</p>  |

|                   | <p>educational institutions enables us to reach out to youths in these institutions. A main feature on Create.Asia is YouthsConnect, a social platform where youths can exchange information about social issues, discuss these issues with their peers from around the world and also hear about international events that happen around the world. There will be appointed mentors who login into this platform to help troubled youths who need counselling/mentoring. These mentors will also help to seek appropriate help if needed. There will also be initiatives in each country to enable these youths to interact with youths, live, in their respective communities and participate in the events being held. All these will help youths to connect with other youths, through shared interests and causes, and unite in their efforts to campaign the causes they support. Through these initiatives, youths can be picked to head certain sub-committies and learn valuable leadership skills. We must emphasize that the youths will be given proper guidance for each project and undertaking under YouthsConnect and Create.Asia.</p> |

| Executive Summary | Hong Kong Workers' Health Centre is a NGO established since 1984. We has been serving the community for promoting the occupational safety & health for the past 23 years. We also provide community & occupational rehabilitaitons ervice for workers with work injury in Hong Kong & Mainland China.  |
| Domain(s):        | <a href="http://One.asia">One.asia</a>   |
| Executive Summary | <p>Planet Changers is a not-for-profit organization headquartered in Singapore, supporting various campaigns against poverty, AIDS, climate change and alternative technology. Through One.Asia, we intend to represent one global voice for Asians against these causes. We have chosen to address these causes are on a regional level (Asia), as the congregation of Asian contributors would lend better weight and coordination in supporting these causes, in contrast to each country's individual efforts. Being One.Asia, we speak as one Asian community with common values, united in combatting the ills plaguing our world.</p> <p>A brief explanation of the causes we support:<br/> Terminating Poverty: There are impoverished people in Asia and around the world, who lack basic funding to improve their lives. One.Asia solicits funds on behalf of these impoverished individuals, and funds them via their local microfinance organisations on an interest-free basis. The progress of each beneficiary is tracked frequently, and the solicited funds are gradually returned to the donors.<br/> Terminating and Fighting Against AIDS: AIDS has afflicted numerous people around the world, most notably in Africa. In Asia and the Pacific, approximately 7 million people are living with HIV/AIDS. Three countries, Cambodia, Myanmar and Thailand, have HIV prevalence rates above 1% among 15 to 49</p> |

## .Asia Social Pioneers

year olds. We seek funding from organisations and individuals to do our part in counteracting this disease, and to bring about greater AIDS awareness in low-income, afflicted regions.

**Saving Your Earth:** Saving Your Earth is a Digg-style website that enables users to select the best ways they can proactively save the environment in their respective industries. Users get to vote on these results accordingly to their feasibility and the popularity of the idea. This enables government organizations to work some of the best user-generated ideas and develop these ideas further or even fund individuals to expand on these ideas. Our primary goal for ONE.asia is that both government bodies and individuals would be able to use this platform to effectively contribute not only to various causes but also to climate change.

**The Green Mansion:** A Social Network for environmentalists and NGOs to contribute articles, discuss information pertaining to the environment and coping with climate change. We believe in the "wisdom of crowd's principle" and we believe with a collective number of people researching and contributing articles to climate change; this will make people more educated about the perils of climate change and ensure users feel a sense of ownership in protecting the environment. This will ensure such information is organized and accessible to any individual. Users will also be aware of what are the proactive steps that can take to combat climate change. We believe the more people use our system, the better it will get. The system constantly studies users' feedbacks and improves search results when users indicate they have found a certain article relevant or irrelevant to their query.

(Saving Your Earth and The Green Mansion come under the Going Green Network, a movement to encourage people to use green products. With the prominent nature of the going green network endorsing green technology and green gadgets and also being highlighted at TED (Technology Entertainment Design), we believe that One.asia will be an umbrella brand that will be the home to many social initiatives and we hope to get as many global leaders as possible to endorse our global initiative.

**Alternative Technology** is for people to adopt green technology, talk about carbon emission in countries like India or China. We are working on a calculator that will take the details of one's lifestyle and work out the impact one makes on the environment because of the way one lives or the actions he/she takes. This calculator will quantify the amount of carbon emission emitted and advice users what alternative forms of energy/technology could be taken to reduce the amount of carbon emissions. Users would be also able to run "what-if" scenarios based on the tips chosen as inputs. These simulations will illustrate the reduction in your carbon emissions, if you decide to employ them and set them as a goal. It will allow you to compare your achievements with other individuals' or groups', and will enable you to form or join groups that have set similar goals to adopt alternative forms of technology. It will also enable you to track your successes.

**MicroFunding.org:** The website will house a donation platform to accept and pool donations from lenders to fight causes, and to distribute these donations to specific causes and entrepreneurs served by microfinance institutions (for elimination of poverty). Contributors will be able to choose which cause(s) they wish to donate to, in any amount. The results of each donation, the credibility and delinquency of each beneficiary will be displayed transparently on the One.Asia website so that lenders can lend in confidence. Emails on the progress of each supported cause will be sent to contributors, and individuals who opt-in to our mailing lists.

| Executive Summary | <p>Respect for all faiths , Tolerance for all cultures, Love for all life<br/>         Established in 2001, the world’ s first Museum of World Religions is dedicated to exploring the diversity of the world’ s religious traditions and their interconnections. Through dynamic, state-of-the art exhibitions, multimedia presentations and displays of works of arts, the 7883-square-meter MWR is the first museum to highlight respect, tolerance and love as the shared values of all religions.</p> <p>The Museum of World Religions reflects the vision of its founder, Dharma Master Hsin Tao, who conceived the museum as an educational institution that would encourage greater religious and cultural understanding. To accomplish this goal, the MWR fosters dialogue among people of many diverse faiths and backgrounds, and provides global outreach initiatives to extend the vital messages of tolerance and peace to a worldwide audience.</p> <p>The MWR also cooperates with the major interfaith institutes around the world on various projects, including conference, dialogue and disaster relief. After the 911 tragedy, the MWR founded an International NGO, Global Family of Love and Peace, in New York, devoted to build a harmonious world through dialogue and spiritual education. Since 2002 GFLP has hosted a series of Buddhist &amp; Muslim Dialogue in NY, Indonesia, Malaysia, Paris/UNESCO, Iran, Spain, Morocco, China, Taiwan, and soon will host its tenth Dialogue at the United Nations Headquarter in September 2008.</p> |

| Executive Summary | <p>Respect for all faiths , Tolerance for all cultures, Love for all life</p> <p>Established in 2001, the world’ s first Museum of World Religions is dedicated to exploring the diversity of the world’ s religious traditions and their interconnections. Through dynamic, state-of-the art exhibitions, multimedia presentations and displays of works of arts, the 7883-square-meter MWR is the first museum to highlight respect, tolerance and love as the shared values of all religions.</p> <p>The Museum of World Religions reflects the vision of its founder, Dharma Master Hsin Tao, who conceived the museum as an educational institution that would encourage greater religious and cultural understanding. To accomplish this goal, the MWR fosters dialogue among people of many diverse faiths and backgrounds, and provides global outreach initiatives to extend the vital messages of tolerance and peace to a worldwide audience.</p> <p>The MWR also cooperates with the major interfaith institutes around the world on various projects, including conference, dialogue and disaster relief. After the 911 tragedy, the MWR founded an International NGO, Global Family of Love and Peace, in New York, devoted to build a harmonious world through dialogue and spiritual education. Since 2002 GFLP has hosted a series of Buddhist &amp; Muslim Dialogue in NY, Indonesia, Malaysia, Paris/UNESCO, Iran, Spain, Morocco, China, Taiwan, and soon will host its tenth Dialogue at the United Nations Headquarter in September 2008.</p> |

| <p>Executive Summary</p> | <p>The Asian economy continues to grow as a dynamic pace and entrepreneurship continues to be a key driver in most economies. With the rise of many emerging countries, entrepreneurship is a key component that continues to fuel the economic growth of many countries. Entrepreneur.asia envisions to become an organization that helps groom the next breed of entrepreneurs. We intend to act as a hub for anybody interested in entrepreneurial development and to seek out the necessary resources for any entrepreneur to start his/her own business. We have partnerships with many major organizations, and with universities.</p> <p>Entrepreneur.asia seeks partnerships with major affiliations like GENO who has been a major supporter of the World Entrepreneur of the Year (WEOY)</p>  |

|                   | <p>awards held by Ernest &amp;Young on an annual basis. Through these affiliations, Entrepreneur.asia continues to send our members to these conferences to network with the best and learn from them what it takes to be a global entrepreneur to hire the best talent from around the world. We have also supported major SME conferences; the World SME Expo in HongKong where we conduct conferences/workshops to help participants understand successful straits of entrepreneurs.</p> <p>Under the umbrella brand of Entrepreneur.asia, we intend to roll out a micro entrepreneurship initiative which is an online platform which helps users loan small sums of money to villagers in third world developing countries. This serves as a platform for us to gain access to outstanding entrepreneurs from impoverished communities world-wide. We are also in talks with PayPal and other microfinance institutions to have the first Micro Entrepreneurship awards. This will be organized by Entrepreneur. asia to alleviate the brand of Entrepreneur.asia and its social implications.</p> |

| Executive Summary | <p>The CDC is a non-profit organization in Hong Kong, and would like to apply for the social pioneer application. The Child Development Centre is a non-profit organization established 31 years ago, offering early intervention services to children aged 0 to 6 years with developmental delays. The Centre is partially subsidised by the Social Welfare Department and was the first to integrate typical children and those with special needs into group sessions in Hong Kong.</p> <p>Centre services include baby clinic, toddler group, pre-school programmes, speech and social skill programmes, sensorimotor programmes, individualized educational programmes, play stimulation, and family support &amp; counselling. The working language is English and the Centre takes in children of every nationality. The Centre is also a resource for all of Hong Kong providing parent counselling, consultancy, child development training for parents and child care professionals.</p> <p>We envision a society where each child, irrespective of background or ability, receives an affordable, easily-accessible, world-class education in a compassionate and inclusive environment</p> <p>The CDC:</p> <ul style="list-style-type: none"> <li>- Provides tailored early intervention for all children with developmental or special educational needs delivered by a dedicated team of skilled professionals</li> <li>- Empowers and guides parents and service providers</li> <li>- Advocates the inclusion of all children into the community through public awareness and education</li> </ul> |

|-------------------|---|
| Executive Summary | <p>The City of Frankfurt is at the center of the larger Frankfurt Rhine Main Area which has a population of 5,3 million. The City of Frankfurt is the financial and transportation centre of Germany and one of the two largest financial centres in continental Europe, the other being Paris. It is the place of residence of the European Central Bank, the German Federal Bank, the Frankfurt Stock Exchange and the Frankfurt Trade Fair. Frankfurt International Airport is one of the world's busiest airports, Frankfurt Central Station is one of the largest terminal stations in Europe and the Frankfurter Kreuz (Autobahn interchange) is the most heavily used interchange in Europe. 180 different nationalities reside in Frankfurt. The Frankfurt Area is also home to one of the largest Asian communities in Europe. The City of Frankfurt is well known worldwide and listed as one of ten Alpha world cities. Among English speakers the city is commonly known simply as "Frankfurt".</p> <p>Given the worldwide reputation of The City of Frankfurt and the fact that there is also a living and prospering Asian community in Frankfurt, the registration of the domain &lt;frankfurt.asia&gt; is of paramount significance for The City of Frankfurt. In light of the relevant domain registration rules, we would like to ask you whether we can register the domains &lt;frankfurt.asia&gt;, &lt;frankfurtmain.asia&gt;, &lt;frankfurtammain.asia&gt;, &lt;frankfurt-main.asia&gt; and &lt;frankfurt-am-main.asia&gt; as soon as possible. In the past, The City of Frankfurt made the experience that third parties tried to register "Frankfurt"-domains, presumably to sell such names to The City of Frankfurt at a later stage. In order to avoid such behavior or other potentially misleading practices, we successfully represented The City of Frankfurt most recently before an Arbitration Court in a legal proceeding against EURid, the official registrar of the domain &lt;.eu&gt;, in a case relating to the registration of the domain &lt;frankfurt.eu&gt; since a Netherlands Company has filed successfully for the domain registration &lt;frankfurt.eu&gt; based on a Benelux trademark application FRANKF&amp;URT (please see attached a copy of this decision for your information).</p> |

The Frankfurt Area is also home to one of the largest Asian communities in Europe. The City of Frankfurt is well known worldwide and listed as one of ten Alpha world cities. Among English speakers the city is commonly known simply as "Frankfurt".</p> <p>Given the worldwide reputation of The City of Frankfurt and the fact that there is also a living and prospering Asian community in Frankfurt, the registration of the domain &lt;frankfurt.asia&gt; is of paramount significance for The City of Frankfurt. In light of the relevant domain registration rules, we would like to ask you whether we can register the domains &lt;frankfurt.asia&gt;, &lt;frankfurtmain.asia&gt;, &lt;frankfurtammain.asia&gt;, &lt;frankfurt-main.asia&gt; and &lt;frankfurt-am-main.asia&gt; as soon as possible. In the past, The City of Frankfurt made the experience that third parties tried to register "Frankfurt"-domains, presumably to sell such names to The City of Frankfurt at a later stage. In order to avoid such behavior or other potentially misleading practices, we successfully represented The City of Frankfurt most recently before an Arbitration Court in a legal proceeding against EURid, the official registrar of the domain &lt;.eu&gt;, in a case relating to the registration of the domain</p> |

| Executive Summary | <p>The Phase I of PAN Localization project (from 2004-2007) focussed on developing local language standards and technology across seven Asian countries. The countries (and languages) included in the Project were Afghanistan (Pashto), Bangladesh (Bangla), Bhutan (Dzongkha), Cambodia (Khmer), Laos (Lao), Nepal (Nepali) and Sri Lanka (Sinhala, Tamil). At the end of Phase I of the project, the countries successfully completed the planned spectrum of research and developed local language technology and applications. Outputs include the development and release of Linux distributions for Dzongkha and Nepali, working systems for Optical Character Recognition for Sinhala, Bangla and Lao, Lexica and Spell Checking Utility for Bangla, Dzongkha, Khmer, Lao and Nepali, Text To Speech System for Sinhala, Keyboard and Collation Standards, Fonts and more. A complete list of software and associated research outputs are posted under the Outputs link of the project website.</p> <p>The project has also carried out an extensive training program to raise capacity to develop language technology, conducting national and regional short-term and long term programs across all partner countries. Training has been imparted in linguistics, standards development, open source software localization, speech processing, script processing and computational linguistics. Details of training conducted, training programs and training material is also published at the project website (under the Activities link). The first phase has also built an Asian network of researchers to share knowledge in language computing. The project has been (and is continually) publishing research reports, documenting effective processes, results and recommendations.</p> <p>Phase II of PAN Localization project will research into challenges associated with digital literacy of end-users using the localized technology for communication and to produce local language content. The project will also continue to further mature the language technology in the target languages. The project aims to continue till 2010, and beyond.</p> <p>The project is supported by IDRC (<a href="http://www.IDRC.ca">www.IDRC.ca</a>) and managed by CRULP (<a href="http://www.CRULP.org">www.CRULP.org</a>), NUCES (<a href="http://www.nu.edu.pk">www.nu.edu.pk</a>).</p> |

|-------------------|---|
| Executive Summary | <p>The World Student Christian Federation (WSCF or Federation) is a worldwide ecumenical fellowship of Christian movements and student associations as well as other members of the academic community. It is a volunteer organization created in 1885 by a group of young students, it is historically the first international student organization. It seeks to provide a worldwide ecumenical forum for students across boundaries of culture, race and religion. WSCF Asia Pacific Region is one among six other regional bodies of WSCF. Its aims to train and nurture members to become “academically advanced as students, theologically equipped as Christians, and ecumenically oriented as church-related persons.” The local unit of the WSCF is the Student Christian Movement or SCM. Its primary constituency includes students in the university and tertiary institutions, senior friends, members of the academic community, staff and other persons involved in churches and ecumenical work. Every branch of the SCM relates to the national movement in each country. There are 18 member national movements from the following countries:Indonesia, Timor Leste, Singapore, Thailand, Cambodia, Myanmar, Philippines, New Zealand, Australia, Fiji, Korea, Japan, Taiwan, Hong Kong, India, Pakistan, Bangladesh, Sri Lanka.</p> |

| Executive Summary | <p>www.hkcd.org, a networking platform developed exclusively for adult Christian singles, started in August 2006. Currently, we have over 1800 registered members and majority from Christians of Hong Kong churches. We organize monthly event, seminar for our members and to provide an environment for our members to build fellowship. Our vision is to provide a safe and hassle free environment for them to connect and develop relationship with people of same faith which is fundamental element for a successful marriage.</p>  |
| Domain(s):        | <a href="#">APNG.asia</a>   |
| Executive Summary | <p>Asia Pacific Networking Group (APNG) is an Internet organization dedicated to the advancement of networking infrastructure in this region and to the research and development of all associated enabling technologies. Its mission is to promote the Internet and the coordination of network inter-connectivity in the Asia Pacific Region. It also represents the “Asia Pacific Next Generation” raising the voice of the Next Generation of the region.</p> <p>Through its activities, it has spawned off a number of Asia Pacific organizations including Asia Pacific Network Information Centre (APNIC), Asia &amp; Pacific Internet Association (APIA), Asia Pacific Top Level Domain Association (APTLD) and Asia Pacific Computer Emergency Response Team (APCERT). Today, APNG represents the region at the Coordinating Committee for Inter-Continental Research Networking (CCIRN), and is the leading voice of Internet networking in the Asia Pacific Region.</p> <p>APNG operates through Steering Committee and a Secretariat. It holds yearly meetings in different locations throughout the Asia Pacific Region. Each meeting is usually associated with a seminar, focusing on current topics of interest related to networking. APNG and its camp activities are not only empowering the Next Generation who has the power of developmental assets and an innovative and fresh point of view on Internet Technology but also bonding and strengthening relationship among senior leaders and the youth to share and discuss over perspectives of today’s Internet in Asia Pacific.</p> <p>With open membership, all are welcome to participate in a wide range of Working Groups and anyone is free to hold a Birds-of-a-Feather discussion group (BoF) during our regular yearly meetings. Further, APNG has its local representation named “Local Committees” in many of the countries in the region through which APNG convey its messages to the ground level of the region.</p> <p>2. APNG Mission and Vision</p> <p>2.1. Our Visions:</p> <ul style="list-style-type: none"> <li>• To be a core organization of Internet Community in Asia Pacific</li> <li>• To be a stable organization with appropriate resource and fund; and</li> <li>• To be an active and alive organization being operated by Next Generation.</li> </ul> <p>2.2. Our Mission:</p> <p style="padding-left: 40px;">To contribute Internet Growth in Asia Pacific through</p> <ul style="list-style-type: none"> <li>• Learning its history in each county and experience from seniors.</li> <li>• Sharing information among community.</li> </ul> |

| Executive Summary | <p>DSF.Asia<br/>The Digital Solidarity Fund (DSF), was established in 2004 by the Hong Kong Council of Social Service, with the financial support from the Government and commercial sector. The objective of DSF is to secure financial support for digital inclusion programmes in Hong Kong. Besides, DSF also acts as a collaborative platform to engage different stakeholders, including Government, the business sector, NGOs and the public, in designing and implementing strategies that narrow the digital divide in Hong Kong. Since established in 2004, the DSF had supported 29 projects of local NGOs with a total granted amount over HKD 4.6M. Over 140,000 people, including elderly, low income family, people with disabilities and chronic illness, homemakers, residents in remote area, etc. have benefited from these funded projects.<br/>(Current website: <a href="http://www.dsf.org.hk">http://www.dsf.org.hk</a>)</p> |
